

I like videophone. It very comfortable commucation with my family and they think I am hearing to talk with. I told them that I using the videophone with an interpreter and it a lot of help me to get understand this. it wonderful. And also leave message to my computer from whoever call me from Doctor and they do understand what is like and I am very glad to call back what the Doctor say and what is my physical problem and it really great explain to me and understand clear wow . that videophone is big helpful and my feel more trust that way. Thanks Penny
